

Opening September 2007 CentreStage will be a theatrical centre of excellence offering young people between the ages of 4-18 the opportunity to explore and develop their potential through classes and workshops in singing, dancing and acting.

We are branding CentreStage from the "ground-up". Logo, brand guidelines, art direction, stationery, promotional literature, website, t-shirts, the lot. Over the coming months, with the help of their PR agency, we plan to position CentreStage as the contemporary choice in the local market.
